	On 23 April I	1948, thirty to 1	forty former Luftwa	die signal experts arrayed at		
	Windorf (291). The men, cave in German cers and were saccomposite ed by Soviet officers and a few Soviet civilians. They were installed in the 50X1-HUM north building of the Heeresportschule, where each man was assigned a Massical orderly and two rooms. Most of these men were later transferred elsewhere but,

Comment: 50X1-HUM
passage through Zossen to Winsdorf on 23 April of 16 cars of specialized troops with a field radio station and signal truck) 50X1-HUM

During the week 17-23 April, four other Luftwaffe officers in Soviet uniform (minus shoulder tabs) stayed at Wünsdorf, apparently for the purpose of checking the airfield installations south of the Sportschule. During 1945 this field was used by German fighter and courier airc vaft. In late 1947 it was enlarged by the Russians and the outer section was leveled off. The staked off field is 1800 meters long and approximately 1200 to 1500 meters wide. Concrete mixers and similar equipment were brought in recently. Although only a few Soviet planes have used this field, heavy planes landed on three occasions during the visit of the Luftwaffe officers. Two twin-engine and one JU-52 aircraft were employed landing and taking off without difficulty.

Comment:

a Luftwaffe group has been set 50X1-HUM within the Soviet Air Force under General Fuchs and that this group has been set 50X1-HUM now in operation. Fuchs is said to go under the name of Brandenburg or Brandenburger.)

Armored and infantry troops, with approximately 250 JS tanks, left Winsdorf between 19 and 29 April, leaving behind an unreported number of MVD troops and one battalion of secret field police. A motorcycle unit arrived on 29 April, but its subordination is not known. Replacements arrived in Minsdorf between 29 April and 5 May. Strength is approximately 10,000 infantrymen of various year classes, half of whom are accd 20 to 25 and much decorated. The rest are young, aged 16 to 20. The EM are restricted and only officers enjoy a certain freedom of movement.

5.

6.

7.

Between 26 and 27 April and 5 May, tanks arrived by rail and proceeded to the training area. Most of the unloading took place at night, with trains departing immediately afterward. The number of tanks is not known.

Beginning 27 April, all roads leading to the Wünsdorf training area were sealed off and provided with three road blocks, each comprising 12 to 15 men. Other guards with carbines and townyguns, some motorized, patrol the entire area. There is also an outer security circle extending a few kilometers around Wünsdorf, On 2 May, all travelers in this carcle who were unable to prove residence in Wünsdorf were arrested and earted off to the MVD office in Mahlow.
